

**Poster Competition; Thursday, September 9, 2021 - 6 pm CST**

**ZOOM MEETING/GROUP 1: Aortic/Carotid/Outcomes**

**Moderators: Jean Starr/Ross Milner**

1	<b>Outcomes Of Elective Abdominal Aortic Aneurysm Repair In The Setting Of Malignancy</b> William Patrick Roush (University of Missouri, Columbia, MO)	
2	<b>The Effect Of Neutrophil-Lymphocyte Ratio On Ten-Year Survival Outcomes Following Elective Open And EVAR Procedures</b> Megan A. Mitchell (University Hospitals, Cleveland, OH)	
3	<b>Local/Regional Anesthesia Coupled With Dexmedetomidine Is A Safe, Effective Anesthesia Modality For Carotid Endarterectomy</b> Samik H. Patel (Saint Joseph Mercy Ann Arbor, Ypsilanti, MI)	
4	<b>Changing Patterns Of Fenestrated/Branched Endovascular Aortic Repair: Single Institution Experience</b> Victor H. Hatcher (University of Iowa, Iowa City, IA)	
5	<b>Management And Outcome Of Non-Aneurysmal Primary Infection Of The Aorta</b> Aric A. Wogslund (University Hospitals, Cleveland, OH)	
6	<b>Morphologic And Histologic Character Of Pediatric Abdominal Aortic Developmental Coarctation, Hypoplasia, And Duplication</b> James C. Stanley (University of Michigan, Ann Arbor, MI)	
7	<b>Retrospective Review Of Thrombotic Events In Empirically Anticoagulated Covid-19 Patients</b> Marlene Garcia-Neuer (The Ohio State University, Columbus, OH)	
8	<b>Percutaneous Vascular Surgery Procedures Shorten Hospital Stay With The Risk For More Post-discharge Complications</b> Ruoqia Debbie Li (Northwestern University, Chicago, IL)	
9	<b>Combination Of Fenestrated Endovascular Aortic Repair With Distal Unibody Anatomic Fixation</b> Nicole M. Gensicke (University of Iowa, Iowa City, IA)	
10	<b>Digital Outreach In The Covid-19 Era Of Vascular Surgery Interviews</b> Ahmed A. Sorour (Cleveland Clinic, Cleveland, OH)	
11	<b>Characterizing Satisfaction With Care and Quality of Life Following Vascular Procedures</b> Gloria Y. Kim (University of Michigan, Ann Arbor, MI)	

**Poster Competition; Thursday, September 9, 2021 - 6 pm CST**

**ZOOM MEETING/GROUP 2: Peripheral Arterial Disease**

**Moderators: Bernadette Aulivola/Raghu Motaganahalli**

1	<b>Embolic Occlusion Of Radial And Ulnar Arteries From Posterior Circumflex Humeral Artery Aneurysm In A Young Basketball Player</b> Mia C. Miller (University of Minnesota, Minneapolis, MN)	
2	<b>Iliac Artery Interventions Are Not A Predictor Of Femoral-femoral Bypass Graft Failure</b> Justin R. King (Indiana University, Indianapolis, IN)	
3	<b>Peripheral Artery Disease Outcomes In Renal Transplant Patients</b> Avital Simone (Loyola University, Maywood, IL)	
4	<b>Multi-segmental Digital Pulse Volume Recording Allows Quantitative Assessment Of The Hemodynamic Effects Of Arterial Stenosis</b> Eric Steven Goldschmidt (University of Toledo, Toledo, OH)	
5	<b>Directional Atherectomy And Paclitaxel Coated Balloon Angioplasty (DCB) For Long Segment Femoropopliteal Artery Atherosclerotic Disease</b> Christopher Zhou (Case Western Reserve University, Cleveland, OH)	
6	<b>Osteochondroma As An Unusual Cause Of Popliteal Artery Pseudoaneurysm And Occlusion</b> Humraaz Samra (Indiana University, Indianapolis, IN)	
7	<b>The Use Of Near-Infrared Spectroscopy Evaluation As A Stress Testing Method In Peripheral Artery Disease</b> Molly N. Schieber (University of Nebraska, Omaha, NE)	
8	<b>Aggressive Attempts At Limb Salvage Are Associated With Improved Survival</b> Carly G. Sobol (The Ohio State University, Columbus, OH)	
9	<b>Functional Popliteal Artery Entrapment Syndrome (fPAES): A Comparative Study Of Diagnostic Approaches</b> Andrew Pan Huang (University of Wisconsin, Madison, WI)	
10	<b>The Frequency Of Compartment Syndrome In Acute Limb Ischemia Requires The Capacity To Diagnose And Treat For Optimal Outcomes</b> Omar Kafri (Henry Ford Health System, Detroit, MI)	
11	<b>Contralateral Subsequent Intervention Is Common And Not Associated With Amputation Following Endovascular Treatment Of Peripheral Arterial Disease</b> Craig Brown (University of Michigan, Ann Arbor, MI)
